

RJ 出品

二维码app 新功能

一屏一个新变化 看图就懂

 红框 = 看这里

共 7 屏

七个新功能

01 新的分享界面

02 分享出去的图片

03 绣名自动检查

04 绣名检查状态

05 拍照 所见即所得

06 拍照前的提示

07 黄色取景框

1 / 7

分享报告

这是什么

- 新的分享界面 按钮更大
- 现在可以直接分享二维码图片

怎么用

- 以后用「分享图片」发二维码 不要再用链接
- 链接过几周就取消 以后只留图片
- 图片更干净 也能看清订单号

红框 = 点这里

2 / 7

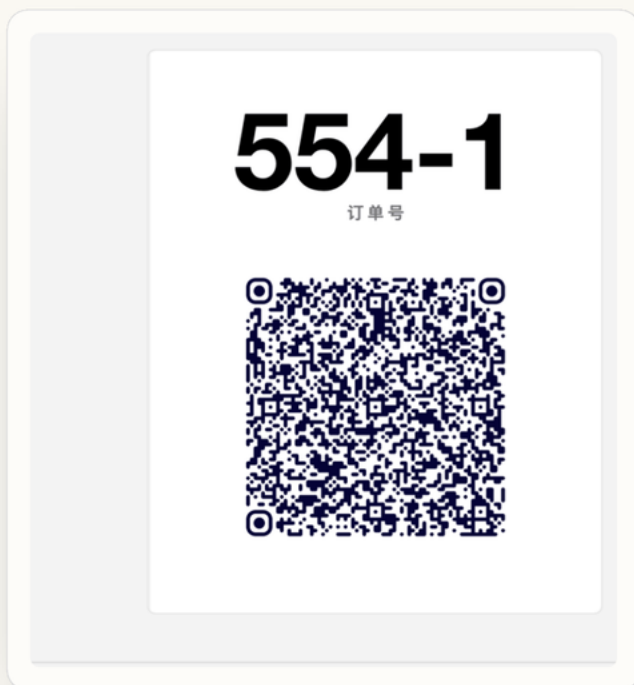

分享图片

这是什么

- 这就是分享出去的图片
- 上面有订单号和二维码

怎么用

- 二维码内容和链接完全一样
- 你导出哪一件 二维码里就只有那一件
- 例：订单有 4 件 只导出 1 件衬衫 → 二维码只有那 1 件

3 / 7

绣名自动检查

这是什么

- 绣名现在有了新的自动检查
- 只针对绣名（衬衫绣名 和 西装绣名）
- 你上传的照片会被自动看一遍

怎么用

- 上传后 30 秒内出结果
- 结果（通过／失败）发到微信绣名群
- 群静音的话 自己进群看订单号和结果
- 通过 → 和以前一样 标记正常 继续
- 失败 → 绣名文字有问题 在群里 @老板
- 需要人工审核 → 耐心等待 有人看后告诉你

要知道

- 一开始失败会多一点 因为照片模糊
- 以后换更好的相机 失败就会变少

红框 = 新的检查

4 / 7

绣名检查状态

这是什么

- 这一页显示绣名检查的状态
- 检查中显示进度 完成后显示 通过 或 失败
- 页面也重新设计 绣名文字更清楚

怎么用

- 一般 10 - 15 秒完成 忙时慢一点
- 已提交 1.1 期就看不到这页 不用一直等
- 能看清绣名细节：字体、字高、是否斜体、位置（中间／领子／领子后）

5 / 7

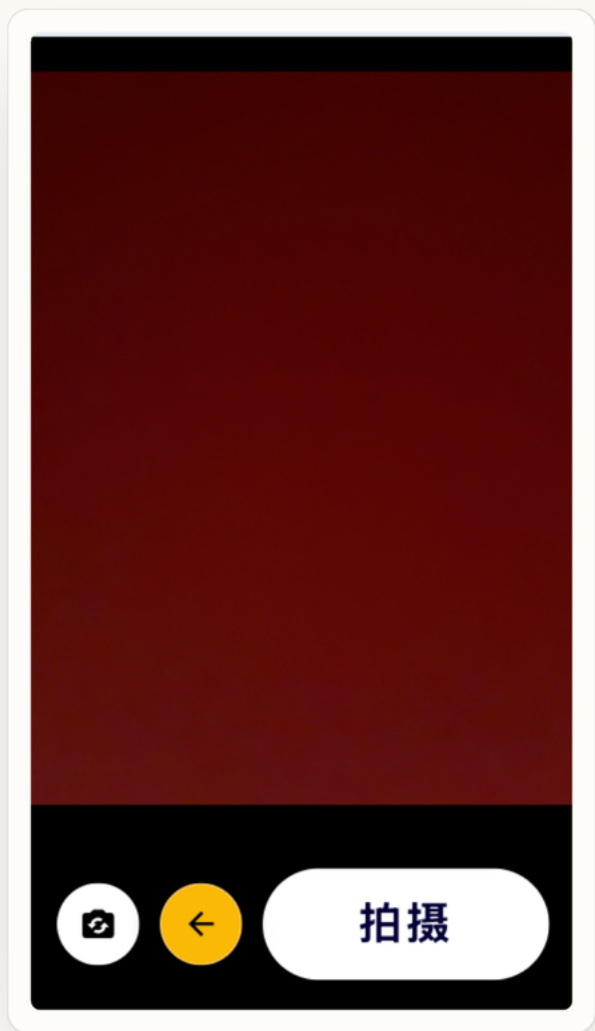

拍照界面

这是什么

- 这是拍照界面
- 屏幕上看到的 就是最后保存的照片（所见即所得）

怎么用

- 对准绣名 按大白色的「拍摄」按钮
- 左下角圆圈切换前后摄像头 黄色箭头返回

6 / 7

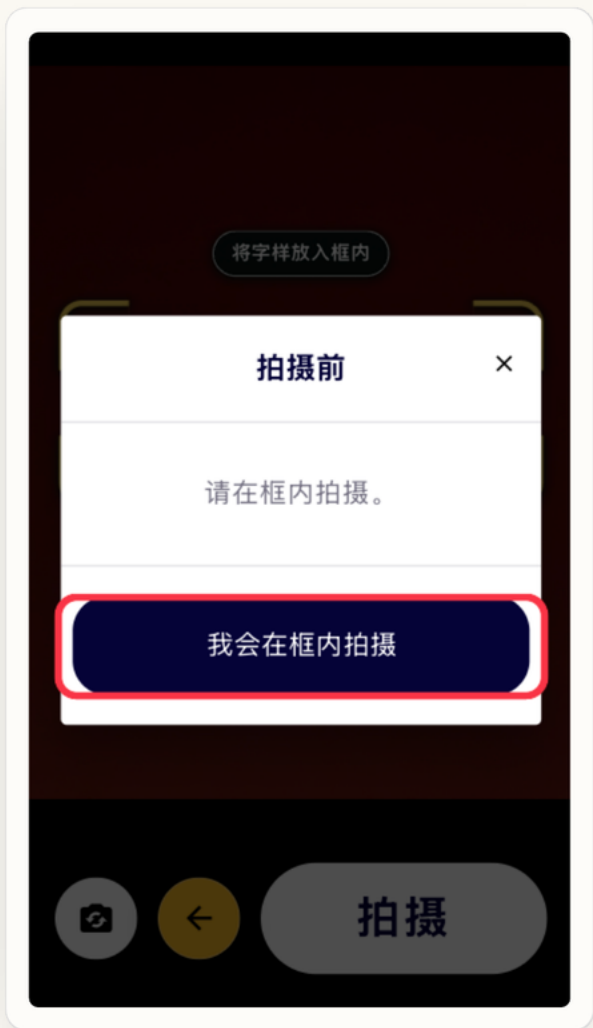

拍照前的提示

这是什么

— 这是拍照前的提示

怎么用

- 把绣名放进框里再拍
- 点「我会在框内拍摄」继续

红框 = 点这里

7₁₇

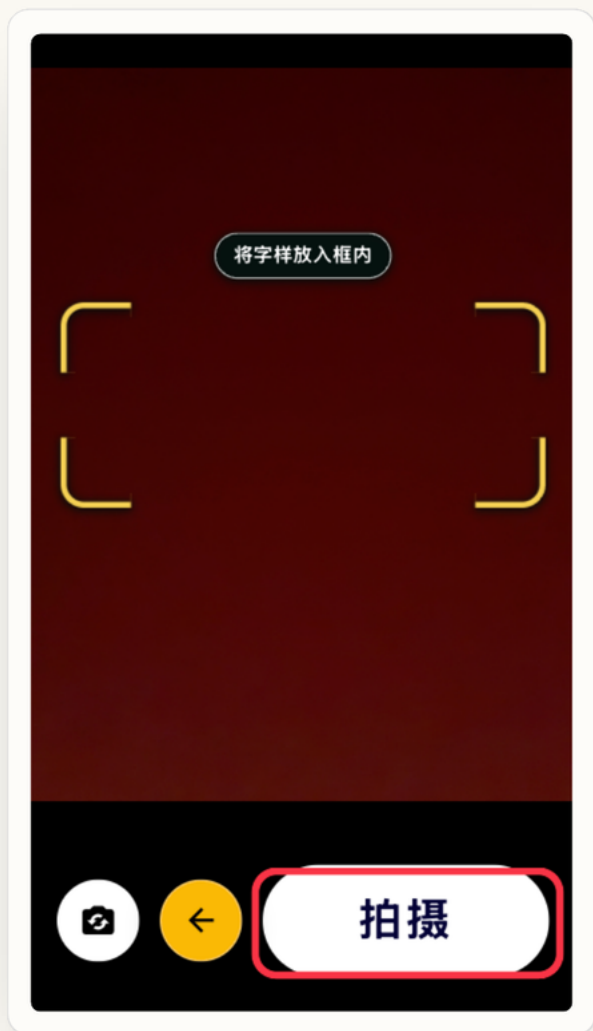

黄色取景框

这是什么

- 黄色的框就是取景框

怎么用

- 请把手机竖着拿 不要横过来 ← 很重要
- 把绣名放进黄色的框里 再按「拍摄」
- 这是第一个版本 以后会慢慢改进

红框 = 按这里拍

这些就是新功能
有问题在群里问

RJ PRESENTS

What's New in Arcadia

*One new change per screen.
See it at a glance.*

 RED BOX = LOOK HERE

7 SCREENS

Seven new things

01 New share screen

02 The shared picture

03 Automatic monogram check

04 Monogram check status

05 Camera — what you see is saved

06 Before-capture reminder

07 The yellow framing box

1 OF 7

Share Report

WHAT IT IS

- New share screen with bigger buttons
- You can now share the QR-code picture directly

HOW TO USE IT

- Send the QR with the Share picture button (red box) — not the link
- The link is removed in a few weeks; only the picture stays
- The picture is cleaner and shows the order number clearly

RED BOX = TAP HERE

2 OF 7

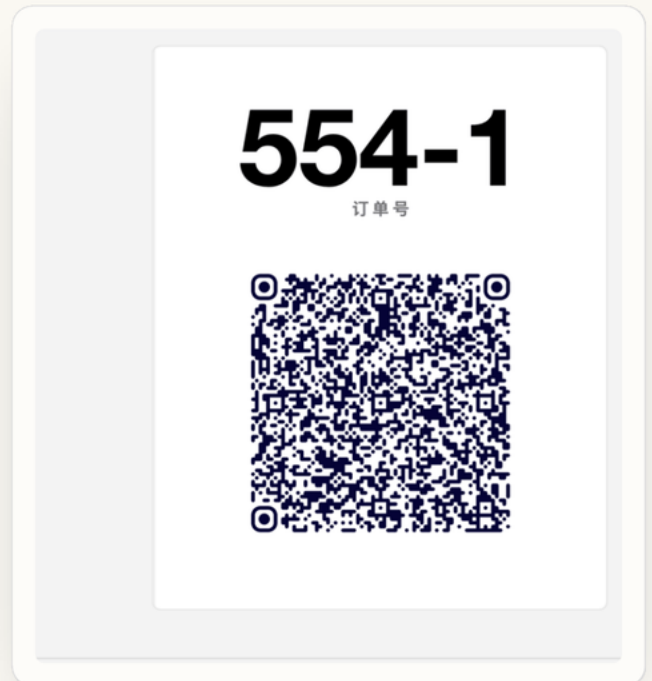

The Share Image

WHAT IT IS

- This is the image that gets shared
- It carries the order number and a QR code

HOW TO USE IT

- The QR code holds exactly what the link held
- Whatever single item you export, the QR holds only that item
- Example: an order of 4 garments, export 1 shirt → the QR shows only that 1 shirt

3 OF 7

Automatic Monogram Check

WHAT IT IS

- Monograms now have a new automatic check
- Only for monograms (shirt and jacket monograms)
- Every photo you upload is checked automatically

HOW TO USE IT

- A result comes back within 30 seconds
- The result (pass / fail) is sent to the WeChat monogram group
- If the group is muted, open it and read the order number and result
- PASS → same as before → mark it normal and continue
- FAIL → the monogram text is wrong → @ the boss in the group
- Needs human review → wait; someone checks and tells you

GOOD TO KNOW

- More fails at the start, because photos are blurry
- With a better camera later, there will be fewer fails

RED BOX = THE NEW CHECK

4 OF 7

Monogram Check Status

WHAT IT IS

- This page shows the state of the monogram check
- Progress while checking; pass or fail when done
- Redesigned so the monogram text is clearer

HOW TO USE IT

- Usually done in 10 - 15 seconds; slower when busy
- Once you submit phase 1.1 this page is gone — don't wait around
- You can read every detail: font, height, italic, placement (center / collar / back of collar)

5 OF 7

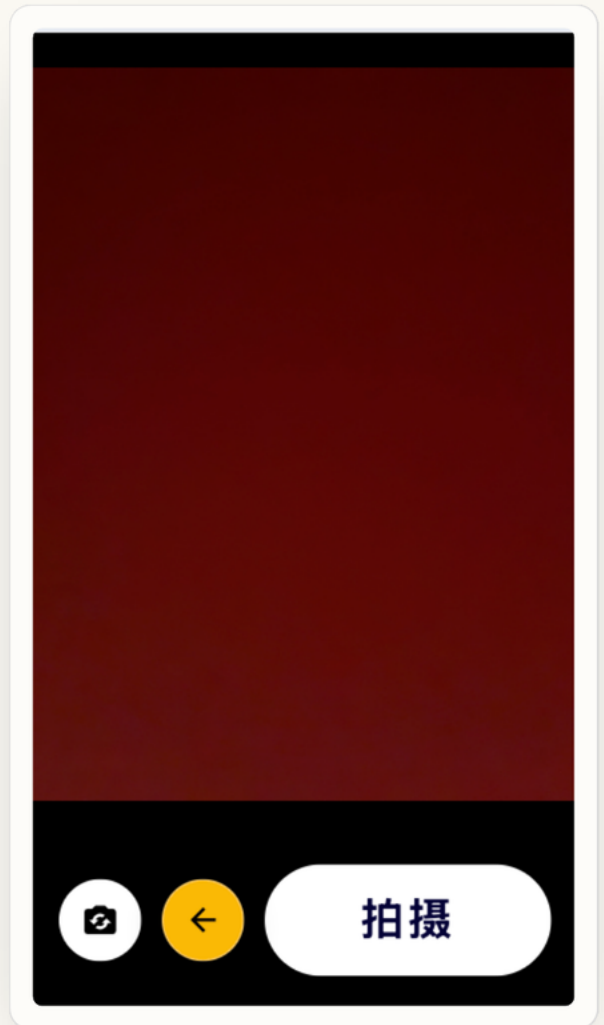

Camera Screen

WHAT IT IS

- This is the camera screen
- What you see on screen is exactly what gets saved (WYSIWYG)

HOW TO USE IT

- Line up the monogram and press the big white Capture button
- The bottom-left circle switches camera; the yellow arrow goes back

6 OF 7

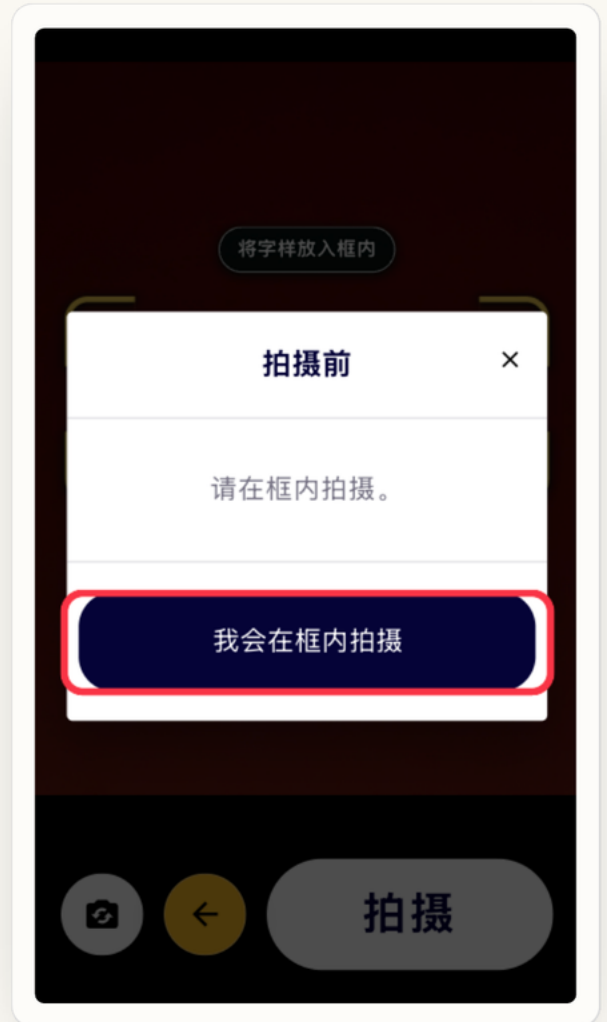

Before You Shoot

WHAT IT IS

- A reminder that appears before you take the photo

HOW TO USE IT

- Put the monogram inside the frame before you shoot
- Tap the dark blue button (red box) to continue

RED BOX = TAP HERE

7 OF 7

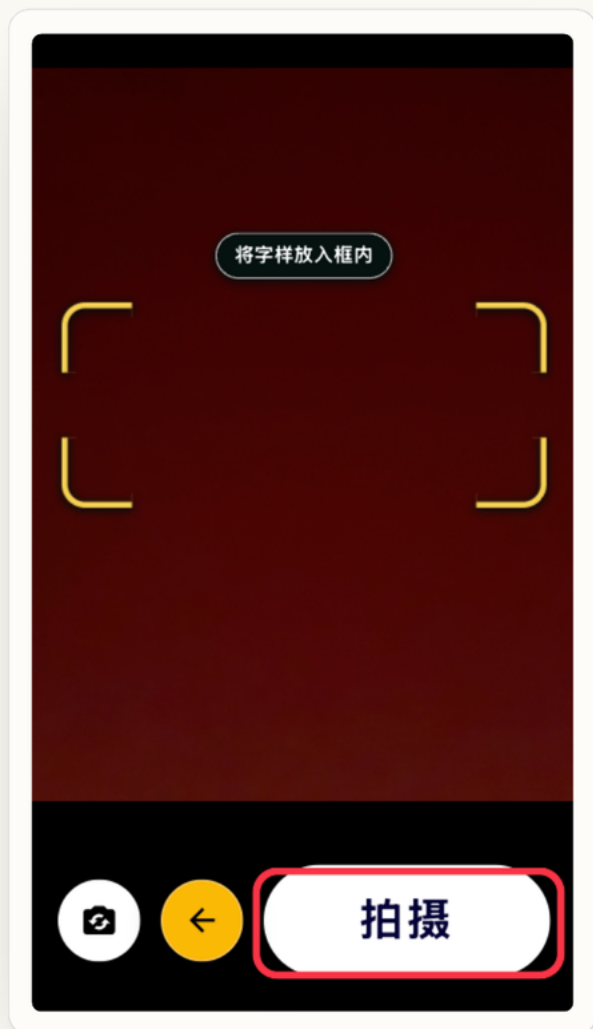

The Yellow Frame

WHAT IT IS

- The yellow brackets are the framing guide

HOW TO USE IT

- Hold the phone UPRIGHT — do NOT turn it sideways ← important
- Put the monogram inside the yellow frame, then press Capture (red box)
- This is the first version; we will improve it over time

RED BOX = PRESS TO CAPTURE

*That's everything new.
Ask in the group if stuck.*
